How to read this report

This report offers classical Jyotish for reflection and timing awareness — not medical, legal, financial, or investment advice, and not a substitute for licensed professionals. The texts describe tendencies and patterns classically associated with the placements shown; no outcome is promised, and the same chart can be lived in many ways. Birth date, time, and place accuracy strongly affect Lagna, houses, divisionals, and dashas. Remedies and green days, where mentioned, are traditional guidance only — verify with a qualified practitioner when decisions are significant. Treat automated text as an aid to understanding your chart, not a binding prediction.

Green shoots

- Name — Harikesh Mishra.
- Date of birth — 7th Oct 2001.

To grow this: take morning sunlight for fifteen minutes and carry one public responsibility this week.

Panchang at birth

Sunrise 05:56:04 · Sunset 17:41:41 · Day duration 11:45:36.

Bal Dasa at birth: Moon 2Y 4M 23D.

- The lunar day at birth sets how energy waxes or wanes in you — effort, rest, and visibility follow that pulse. For you: Panchami (Krishna).
- This Sun–Moon yoga names the background mood of the birth day — a flavour in the air, not a verdict on your life. For you: Vyatipata.
- Karan is the half-tithi rhythm — the finer slice tradition uses when picking a start time. For you: Taitila.
- Your birth star is the Moon's home that night — the starting thread of your dasha story and emotional tone. For you: Rohini pada 4.
- A classical temperament mark from the birth chart — useful as colour, not as a social label. For you: Sudra.
- A traditional matching symbol describing instinctive ease between charts. For you: Sarpa.
- A behavioural style marker used in classical compatibility — one layer among many. For you: Manushya.
- A pulse-type mark in matching; when two charts share it, tradition asks for extra care. Shared Nadi is a caution to slow down, not a closed door — other kootas and lived respect still matter. For you: Antya.

- A classical note on mutual pull and ease between partners. For you: Chatushpad.

Executive Summary

This detailed kundli for Harikesh Mishra is built from 48 chapters, each opening with its own table. Nothing in the writing is added on top of those rows.

The strongest supports printed across the report are Career scores 95/100 on structural markers — workable support with steady effort, not instant results and Marriage scores 75/100 on structural markers — workable support with steady effort, not instant results. Each is named beside its chapter so you can go back and check the row.

On partnership and partner tone: Your 7th lord is Jupiter in house 1 — partnership themes run through this lord and its dignity. Mercury as Darakaraka (DK) marks partner type and long-term commitment style — read it with Venus and the 7th lord, not alone.

On marriage timing readiness: Marriage scores 75/100 here — structural support for paced commitment, not a calendar date on its own.

On Mangal dosha: Cancelled on this chart — read cancellation lines in the dosha chapter before treating it as a partnership stop sign.

Your classical anchor this season remains Gemini Lagna with Moon in Taurus — emotional pacing and partnership choices both run through that pair.

The honest friction points are Spirituality scores 30/100 — thin support; extra patience and prep before binding steps. and Saturn at 12.90 — Vimsopaka Bala · Divisional Strength. They ask for preparation time rather than speed, and they sit beside the supports rather than cancelling them.

Read at your own pace with your Gemini Lagna chart in mind. Each table below closes with a short read of that table only — stop at whichever chapter you came for.

Gemini Lagna · Moon in Rohini · running Rahu–Moon dasha · your classical anchor this season.

- Vimshottari: Rahu Mahadasha · Moon Antardasha sets the background theme for timing and remedies.
- 8 active yogas led by Sarala Yoga.
- Strongest graha: Jupiter (8.8 Rupas) · lean on its significations when planning work.
- Saturn season: Not in Sade Sati · pace structural change; this is a season, not a verdict.

Lagna (Ascendant)

You meet the world through Gemini Lagna — a way of being that feels curious, quick, and alive in conversation. The rising star Ardra (pada 3) softens how others first experience you and how you start new chapters. Ardra is the birth-star on this placement — classically linked with storm-clearing insight, emotional honesty, and renewal after upheaval. Pada 3 is the quarter of that star — a finer shade within the same nakshatra. Read it with the planet's dignity, house, and running dasa — the rest of the chart can steady a harder star-tone. Read this together with whoever sits in your first house: that company shapes the face you show the day.

Functional Nature for Your Lagna

Functional benefics: Mercury.

Krishnamurti Paddhati is a timing lens. Each house cusp and planet is named by its star-lord and sub-lord — the planets that can open or delay that area of life.

Read the ruling planets first for the birth moment's signature, then the cusps for what each house can deliver, then signifiers for who is empowered to act. Use this chapter when you need precision beyond the whole-sign story.

Shadbala · Planetary Strength

Six-fold strength shows how reliably each planet can help you when life asks for its gifts. Each planet has its own classical rupa benchmark (BPHS). The ratio is your score divided by that benchmark — 100% means you meet the classical minimum.

Planet benchmarks explained

Classical minima (rupas): Sun 5.0 · Moon 6.0 · Mars 5.0 · Mercury 7.0 · Jupiter 6.5 · Venus 5.5 · Saturn 5.0.

Mercury's bar is the highest — intellect needs more raw strength before tradition calls it fully productive.

- Jupiter carries 8.81 rupas of six-fold strength — enough, classically, to support wisdom, guidance, and the room to grow. Classical benchmark for Jupiter is 6.5 rupas (you sit at 136% of that line). You can lean on this planet when life asks for those gifts.
- Moon carries 7.90 rupas of six-fold strength — enough, classically, to support mood, memory, and the softness you need to feel safe. Classical benchmark for Moon is 6.0 rupas (you sit at 132% of that line). You can lean on this planet when life asks for those gifts.

3 of 7 planets net Favourable on this chart (max phala 60).

Ishta–Kashta phala compares each planet’s natural ease (Ishta) against friction (Kashta) on this chart — 3 of 7 net Favourable here.

Favourable planets support the areas they rule and occupy; Afflictive ones ask for gentler expectations and steadier practice in those domains.

Read the table with Shadbala and running dasha — a soft planet in a strong dasha can still deliver when handled with care, and that pairing is the supportive reading.

Sankalpa Shakti · Chart Strength Index (ashtakvarga-derived)

Chart Strength Index (ashtakvarga-derived): 15.76 / 30 · Steady.

This is Suraksha Sutra's proprietary Chart Strength Index (ashtakvarga-derived) — a resilience marker under transit pressure, not a personality score and not a medical or psychological test.

Suraksha Sutra ranges (0–30 scale): 23 and above = Exceptional · 17–22.99 = Strong · 10–16.99 = Steady · 5–9.99 = Building · below 5 = Fragile under pressure.

How to read it: higher bands mean the chart's strength stack (house support and planetary fuel) tends to hold better when the sky is heavy; lower bands ask for kinder pacing, allies, and simpler routines in stressed seasons. Compare with Ashtakvarga house soil and running dasha for timing.

Bhrigu Bindu

Bhrigu Bindu falls in Taurus at 28-34-11 — the classical midpoint of Moon and Rahu on the birth chart.

Tradition treats this sensitive degree as a path-marker hinge: when slow planets or dasha lords press it, the texts describe themes of desire, detachment, and course-change often intensifying.

Use it as a timing spotlight with gochar and dasha — not as a single-point life script; grounded routines and trusted counsel balance the intensity.

Mudda dasha · month by month

Tajika Mudda dasha divides the solar-return year into lord-ruled months. Dates are engine fields; the guidance line is a short Suraksha Sutra lexicon note for that lord — not a guarantee.

Use Supported months with your gochar green days when scheduling, and read hard Mudda months as pacing cues rather than fate.

Month	Lord	Start	End	Month note
1	Venus	2026-10-08	2026-11-07	Month 1: Venus Mudda months are classically associated with bonds, comfort, and beauty — kindness to yourself is practical.
2	Saturn	2026-11-07	2026-12-07	Month 2: Saturn Mudda months are classically associated with slow duty and lasting structure — delays are teachers, not punishments; consistent small effort balances the weight.
3	Rahu	2026-12-07	2027-01-07	Month 3: Rahu Mudda months are classically associated with unusual or foreign paths — stay grounded while you stretch; clear routines keep novelty usable.

Month	Lord	Start	End	Month note
4	Ketu	2027-01-07	2027-02-06	Month 4: Ketu Mudda months are classically associated with simplifying and research — less can open more insight; a short daily anchor balances withdrawal.
5	Sun	2027-02-06	2027-03-09	Month 5: Solar Mudda months are classically associated with visibility, authority, and honest leadership — pace ego with service.
6	Moon	2027-03-09	2027-04-08	Month 6: Lunar Mudda months are classically associated with care, home rhythm, and public mood — rest keeps the mind clear.

Active dosha factors

- Pitru Dosha: 9th lord Saturn in H12 (dusthana), afflicted by Saturn conjunction. In classical Jyotish this is a structural caution to read with context — not a fixed fate. Steady conduct, honest relationships, and care for body and mind are the usual response, alongside any cancellations or supports also present in the chart.
- Nadi (self): Antya. In classical Jyotish this is a structural caution to read with context — not a fixed fate. Steady conduct, honest relationships, and care for body and mind are the usual response, alongside any cancellations or supports also present in the chart.

Mangal Dosha

Mars carries a classical relationship caution for this chart (status Cancelled). That is a factor to read with care and context — not a fixed fate. It shows from the Lagna view. It also shows from the Moon. Honest communication and mature partnership are the practical response.

Sade Sati & Small Panoti · Life Timeline

A complete Saturn transit chronology from birth through age 120, calculated from the natal Moon in Taurus. Sade Sati covers Saturn in the sign before the Moon, the Moon sign, and the sign after it. Small Panoti marks Saturn in the fourth or eighth sign from the Moon.

MD / AD columns show the Vimshottari lords running at the start of each Saturn stay. Dates use geocentric Saturn with Lahiri sidereal correction and keep retrograde exits and re-entries as separate rows.

Green shoots

- Saturn crosses your Moon's neighbourhood — a multi-year restructuring; simplify, honour duty, and emerge lighter.

To grow this: keep sleep regular for one lunar cycle and cut screens after sunset.

Needs attention

- No row here needs alarm — only steady pacing.

Keep the habits that already work; adjust only where a row above still feels stuck.

Partnership themes gather around the 7th house, Venus, Darakaraka, and Upapada — read dignity and dasha together, not as a wedding date.

Own-sign or strong Venus often eases relating; dusthana stress is classically associated with a call for slower honesty rather than blame.

Use Vivaha muhurat tools when you want electional green days for engagement or ceremony timing — paced conversation and mutual respect remain the supportive levers.

No graha occupies houses 10, 6, 2, 11 on D1 in this build — read house lords, dasha, and Ashtakvarga soil for those bhava instead.

Career colour gathers in houses 10, 6, 2, and 11 — status, service, resources, and gains.

A weak or pressured 10th-lord is classically associated with skill-building seasons; a strong one supports visible responsibility when dasha opens.

Debilitated career grahas are not a veto — the texts describe a work path that needs craft and allies, not shortcuts, and those supports keep the chapter workable.

No graha occupies houses 2, 11 on D1 in this build — read house lords, dasha, and Ashtakvarga soil for those bhava instead.

Wealth markers sit in houses 2 and 11, with Indu Lagna as a classical wealth-lagna pointer when present.

Read savings (2) and inflows/networks (11) together; one strong and one thin still shapes a usable money story.

These are structural clues for pacing and skill, not a bank-balance forecast — steady budgeting and trusted counsel balance thinner markers.

Indu Lagna

Indu Lagna in Gemini · lord Mercury.

Indu is a classical wealth-lagna pointer — read with houses 2 and 11, not as a bank balance forecast.

Planets placed in houses 4 on D1 — grounded placements only.

Home and property themes gather in the 4th house — emotional base, vehicles of comfort, and landed roots.

Moon or a strong 4th-lord here often ties wellbeing to place; stress there is classically associated with a need for quieter rooms and clearer boundaries.

Pair with D4 for property colour and with gochar green days before major moves — small comforts and clear boundaries support the base.

Vitality · constitution patterns

Vitality is read from the lagna, lagna-lord strength, and houses 1 · 6 · 8 · 12 — never as clinical advice.

Strong Shadbala on the lagna-lord supports recovery rhythms; dusthana occupancy is classically associated with kinder pacing and qualified care when needed.

Use this chapter as hygiene awareness beside sleep, food, and clinical advice — not instead of them; rest and skilled care are the supportive side of the same map.

Constitution marker (classical)

Houses 1 · 6 · 8 · 12

Divisional Charts (D1–D60)

Sixteen Shodashvarga lenses on the same birth. Each North Indian diamond is paired with a compact placement table — only the fields that division actually returns.

D1 • the whole life pattern

D1 looks at the whole life pattern — a classical Shodashvarga lens on the same birth moment.

Read the placements below as a finer grain of the D1 story, not a second life-script. Dignity and house shifts here colour how that life area ripens — and supportive dignity elsewhere can still steady a soft varga note.

Transits, Favourables & Ghatak

Favourable points

Classical lucky associations from the chart — recorded for completeness, not as prescriptions.

Lucky stone above is a single chart field, not the classical 1st/5th/9th triad. For Life / Beneficial / Lucky stones with wear guidance, see the Lucky Gemstone tool on surakshasutra.in.

Caution: Saturn (the planet of this stone) sits in house 12 (a dusthana — 6th, 8th, or 12th). Classical practice is usually cautious about energising dusthana placements with gems. Ask a learned astrologer for personal advice before wearing this gem.

Dusthana flag: the stone's mapped planet sits in the 6th, 8th, or 12th house in D1.
